

Mastering Melvil : a complete "how to" course in Web Dewey 23

No prior skill in using Dewey Decimal Classification is required for this course, which will enable you to master the number building skills of Dewey Decimal Classification in the web format. This interactive course will provide you with an overview of the principles of DDC, and a sequence of practical exercises. You will access Web Dewey, and with the guidance and support of experienced cataloguers will achieve competence in this key cataloguing skill. Feedback and advice will be provided, so that you will emerge at the end of the course with the confidence to tackle classification fearlessly. Online, in partnership with TAFENSW.

PD category: Tertiary Courses

PD points: 30

Dates: 5th Nov – 16th Dec

Registrations Close: 22nd Oct

Is your library relocating?

relax,
we carry
the load.

The transfer of library and archive resources requires specialised processes and expertise.

Allied Pickfords Business Relocations uses modern equipment and unique cataloguing systems that enable books and files to be relocated in sequence order.

We recently completed the successful relocation of Macquarie University Library collection including 1.3 million books using Australia's only purpose built automated book cleaning machines owned and operated by Allied Pickfords Business Relocations.

Here are some reasons why companies utilise our services:

- Experience and Expertise
- Professional Consultation
- Pre-Relocation Planning Assistance
- Professional Packing Systems
- Fully Trained Staff
- Access to High Security Storage
